Reading time	8:20	8:30	10 mins
Controlled Test	8:30	10:30	120 mins
Collect scripts	10:30	10:35	5 mins
Dismissal	10:35		

Study tips:

1. Don't attempt to cram all your studying into one session.
2. Plan when you're going to study
3. Study at the same time each day and establish a routine.
4. Each study time should have a specific goal.
5. Never procrastinate your planned study session.
6. Start with the most difficult subject first.
7. Revise your notes; test yourself and always WRITE answers –it's of no value that you merely SAY it to yourself!
8. Make sure you're not distracted while you're studying.
9. Review all your work once you have completed sections.
10. Try different study methods for different subjects and new ways of memorising facts. Remember, practice makes perfect.
